

Four tie-down attachment points

K&L MC360 CRATE LIFT

A versatile shop tool that allows one person to safely remove a motorcycle out of the crate for assembly. Allows operator to lift up to three times their own weight to a max of 900 lbs. Features four locking heavy duty casters that swivel 360° for improved mobility. Four tie-down attachment points for security.

Can be used for:

- Tire Changing
- Fairing Repairs
- Front End Suspension Overhaul

- 35-9262 K&L MC360 Crate Lift
- 35-9263 Replacement wheels for MC360 Crate Lift, Set of 4.

K&L MC15 CYCLE DOCK

The MC15 Cycle Dock clamp allows one person to load and unload a motorcycle in a trailer, pickup truck or on a service lift. The pivot mechanism uses the weight of the bike to hold itself upright, leaving your hands free to secure the bike. It is simple in design and ruggedly built to last for a long time. Use the mounting rails that are supplied to mount the Dock into a trailer or pickup truck. The rails mount to the deck so you can slide the Dock out leaving just the mounting rails behind, this frees up your truck or trailer for other uses. The kit comes complete with two rockers (wide and narrow), Cradle stop (upright), mounting plate, the support arm (with eyelets and adjustable feet) and two mounting rails. UPS shippable. Note: Tie-Downs recommended.
