## MC135 BEAD BREAKER

The MC135 is the strongest Bead breaker in the industry. Today's ATV wheels have safety beads, which are almost impossible to unseat. With this unit they don't stand a chance! The unit is fully adjustable to handle a wide variety of sizes. The MC135 uses a centralized mounting post, and the rim itself to stabilize the force right where it is needed. (On the bead!) Force is applied through a non-pivoting bead head, making the tire come off almost effortlessly. Patent Pending. 37-9024 MC135 Bead Breaker *Call for availability and pricing!*

## TIRE BEAD EXPANDER

Slips easily over tire. To use, draw strap tight and lock with two rings, apply air pressure. Beads will seal against rim when air pressure is applied. Tough red nylon cover, neoprene inner tube.
