

## JIMS® COMPLETE MODULAR ENGINE & TRANSMISSION STAND KIT

This kit provides a solid and versatile work center for a variety of engine types. With this kit the engine builder can freely position complete engines and transmissions into working position. The base stand allows 360° of rotation while the modular cradles swivel and lock in 180°, 90°, and 45° angles. The base easily bolts to a work bench and comes ready to use with all hardware included. Each piece is constructed from high quality steel.

**35-5248** Complete Engine & Transmission Stand Kit. Use on all Twin Cam 88™ A and B, Big Twin, Sportster® engine cases and 5-Speed Transmissions.

### THIS KIT INCLUDES:

- 35-5413** Base Stand
- 35-5406** "Taller" Single Cam Big Twin Cradle
